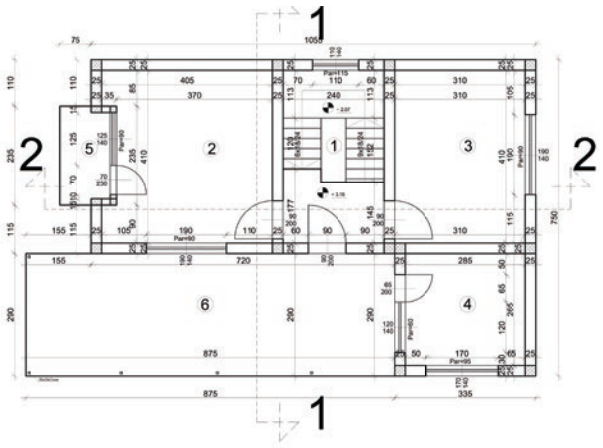
"LET US RISE UP and build"

So they strengthened their hands for the good work! NEHEMIAH 2:18B

MRČAJEVCI kamp

Dear Friends,

In this letter we want to thank you from our hearts and we want to tell you about some things that have happened this summer at Kamp Mrcajevci. Before the camp season began, we received an unbelievable blessing that allowed us to purchase an adjoining property to camp, and we had the opportunity to start the construction of the building which would give us an enclosed dining hall and meeting rooms. Also, the Lord provided the means for 350 campers to come to camp. We also had a team from America from Camp Peniel in Texas who served alongside us for two months as well as other volunteers from America, Switzerland, Slovakia, and the Netherlands along with volunteers from Serbia throughout the summer. Also, we thank the Lord that this summer we had every bed filled almost every week. When I look back over the summer, I can see how God has a great plan for this camp to serve the people of Serbia.


We prayed and planned for a long time to have a building at camp that would have a functioning dining hall and closed-in meeting room. This summer that happened! With God's help, we started the construction of this building. However, due to lack of finances the building was not finished, and was left without windows, doors, and a roof. Although the building was not finished, it was already used and was a huge blessing. I have to admit that we really cannot imagine how we could have made it this summer without the closed-in meeting room and dining hall because it rained very often, almost every other day. So, we already partially experienced the function and blessing of the new building.
