Turinskis Newsletter

Dear friend,

It is time again to share some things that God is doing in Slovenia in the hearts of children and teenagers. However, let me say first that we are greatly excited about God. This excitement gives us strength to continue our work, gives us love for the lost and joy about the call that we carry in our hearts.

We have entered the year of 2013 even more boldly than in all previous years. There is a lot of work and doors are opening. We have our regular clubs and God is the one who keeps adding children, teenagers and parents. How exciting it is to watch this and how happy we are to live in this very period of awakening. In our work, we admire God who collects dry bones, adds tissues, muscles and skin so that His bride – the church would be complete. You and I have our shares in this great deed – you who pray, you who financially support this work, and I who proclaim the Gospel. Thank you for being with me in this year too. I know that we will be presented one day in heaven as good and faithful managers. I look forward to that day but the work has to be done and we have to run all the way to the finish line.

Our Good News Clubs are taking place regularly. After we finished the Christmas ones, we continued with the Valentine's and Easter ones. In all of them, we have stressed the great love of God that embraces everyone. What a joy it was to talk to children about a pure, true, limitless love that never fails!

In March, we had a special honour of the CEF Director Gerd-Walter Buskies visiting us. We had a great time together. We were encouraged by his wonderful lectures that he had in the CEF conference in Ljubljana. Many went home encouraged and motivated to work with children.

We are currently leading a course "How to teach children". There are 15 participants and it is nice to see them how they are thirsty of knowledge on how to work with children. We are grateful to God for every single person because it means that we will have more assistants in our clubs and camps.

The cherry on the top was the baptism and testimonies of children who trusted Jesus in our camps. At the end of March, they confirmed their faith with baptism and stepped in the cold and rough sea. Not even a very strong wind could stop them because their hearts were convinced that God's hand holds and protects them.

We had tears in our eyes when a 12-year old Nusa was talking about her faith and problems that she had in school because of her faith. Nevertheless, she endured.

God blessed her – He gave her a friend who attended the Good News Club and later received Jesus in her heart. Now there are two in Nusa's class who believe in and shine for Jesus. Nusa feels stronger and encouraged that it is worth persevering because God can change the hearts of her friends for who she prays every Wednesday at the Good News Club.

A young man Sergej has attended our camps since he was six. Every year he listened to stories about God. He needed 12 years to surrender his life to Jesus. Now he is 18. He wanted to praise God for everything He has done in his life. To do so he learned to play the guitar and he plays it every Sunday in the worship group and in the youth group he attends. Sergej prays for his family that they too would acknowledge Jesus as their Lord some day.

What nice feelings I had in my heart because I knew that I am partly "to blame" for their decisions! And so are YOU. Hallelujah, how exciting this is! I pray and wish that there would be even more such events, although sometimes we have to wait 12 years for the seed to start growing.

Prior to our summer camps there will be several other events that we will organise in the streets, parks. We are already distributing invitations for summer camps so we would like to ask you: PRAY, PRAY that many children would come.

Hugs,
Zvonko & Dubravka

Please pray that:

- *parents could pay for the camp fees*
- *we would have enough assistants for all camps*
- *we would get a good site for the camp*
- *yours given from your love for His work.*
