

PRAYER LETTER JURI ARAP

**Train up a child in the way he should go;
even when he is old he will not depart from it. (Prov 22,6)**

The grace and peace of our Lord Jesus Christ be upon you

I Thank God for every opportunity that has given me to speak His Word with the different children and through this ministry we have the possibility to influence with our behavior in the children's lives.

After Christmas we had in the church of the "Living water" in Zallmner God touched a 11 year old boy. His name is Klevis.

Staying with children playing, after the game Klevis he expressed for me how grateful he was for me and how much he appreciated me, with a lot of good words

I thanked Klevis but immediately I explained to him that I am not so good the only one who is good and Perfect is Jezus Krist our Lord. And the best way to be a good man is to stay near to God. As much we will stay with God as much we will be as He.

In that moment I realized that people withdraw from God and Good. Often here we think that evilness is growing and people don't even understand holiness but in fact it is so important to realize that children have a great need for God's love and good examples. *"For we are the aroma of Christ to God among those who are being saved and among those who are perishing"* **2 Corinthians 2:15**

So thank God for the opportunity he has given to affected children I contact, not only with the teachings of the Bible but also with my life.

One of the blessing we had this year is the GNC in Valias and Rruga e Burgut

We already have voluntary in Valias who are continuing the meetings of children and also are using CEF literature.

In Rruga e Burgut we were teaching the childhood of Jesus from Life of Christ 1. And suddenly in the room went a little girl Elisa who was listening while I was doing the comparison of the Easter lamb and our Lord Jesus.

She seemed so much affected that that when I made the invitation to accept Jesus she lifted the hand up without hesitation and this act also broke the ice for other people to lifted their hands to even that for the other people wasn't the first time in the GNC.

We need our prayers

- Please pray for Elisa and the other children of Rruga e Burgut so they will grow in faith.
- Please Pray for Klevis so he can be a example for his friends in the school also for His parents.
- Please pray for the elementary schools because they are having school even in Saturday and this is a problem for the time of Good News Clubs (GNC)
- Please pray for the finance of the ministry, we believe that God is the one who provide and he use His people to be part of the call to save Children.
